For trade only

Dear friends,

let us inspire you to follow us into the world of GRIMM'S Greenopia.

GRIMM'S Greenopia is our vision of a life in harmony with nature. We invite everyone to feel connected to nature and would like to encourage you to play in nature. We want you to take your toys outside into nature or to bring treasures from nature back into your home and integrate them into your play, to celebrate special occasions, to create seasonal table displays and to experience this with all your senses.

To our great delight, we have observed increasing interest in natural wooden toys in recent years. We are driven by the desire to promote and inspire free play and its importance to a child's healthy development. That is why we have been designing simple, beautiful and contemporary wooden toys for over 44 years.

All our products don't tell the child how to play, but instead invite children to be creative themselves and to play with them in different ways over and over again. The toys grow with the child and offer different play possibilities, depending on the child's age. In this way, they enable free, intuitive and spontaneous play. This kind of play does not have a specific goal, but instead provides incredibly valuable lessons for life: The child discovers its abilities and potential, learning that they are an individual co-creator and a valuable part of their environment.

If we can contribute even a small part to this, we will have achieved everything we could wish for as a company. We are pleased that you are following this path with us.

With best regards from Hochdorf from the whole GRIMM'S team

Sven *Elke Grimm* *M. Stuber*

Sven Grimm, Elke Grimm und Marco Stuber

WELCOME TO OUR MAGICAL AND LIMITLESS WORLD OF FREE PLAY

When children play freely, worlds open up that are difficult for adults to grasp. They are full of magic and limitless. To stimulate a child's imagination, you don't need tons of toys, but rather a few selected, timeless and multifunctional pieces, and most importantly:

Time to play!

"We want to bring children closer to nature, the world and our lives in a playful and imaginative way."

GRIMM'S products stand for high quality, safety and sustainability

All of our products including the color and oil meet the **European standard for safety of toys (EN71) and the US standards**. This is regularly tested.

All of our products are **hand-made**.

We are certified according to the **FSC™ standard** (License Code: FSC-C125886): We use alder, lime, beech and maple wood, the wood is only from sustainable forestry sources in Europe.

Made by Nature: Because wood is a natural material it always has various markings that show up in our products, making each one unique. These unique variations are **proof of quality**, not defects.

We only varnish our wood with color and oil. We use **non-toxic water based color stain or a non-toxic plant based oil finish**. All colors and oils we use are certified in accordance with the EN 71 and CPSIA/ASTM 963 standards.

If you **clean our products** wipe gently using a damp cloth only. When drying, please do not put on a heater, as this may cause cracks in the wood – simply let dry at room temperature. Please do not submerge in water and do not use disinfectant or hot water.

If wood breaks, it can be glued. Often no replacement part will fit because our products are made by hand. We have prepared a small **first-aid kit** which is available upon request to retail partners. What a joy when the toy is ready for play again!

All of our fabrics are **Oeko-Tex certified**.

For us, it is important to achieve **minimal packaging** because we do not want to contribute to worldwide packaging waste any more than absolutely necessary to ensure safe transport.

This symbol denotes the product is made **in cooperation with sheltered workshops**.

Many of our products are recommended by "**spiel gut**" (good toy guide) an independent certification for educationally valuable toys in Germany.

We are certified in accordance with the **ISO 9001:2015 quality standard**.

- 84 Learn & Experience**
When mathematical correlations are grasped with both the hands and the eyes, then they are more easily understood and learnt.
- 96 Family Celebrations & Rituals**
Handmade festive and seasonal decorations for special moments and every days.
- 111 Marketing Materials**
Beautiful postcards, posters, brochures and coloring books for your customers.

RATTLES &

GRASPING TOYS

Rattles and graspers are tactile and come in timeless designs. They are the most elementary toys for a babies' fine senses.

At the very beginning, when babies start to reach for things, they hold their rattle with a strong grasping reflex and start to explore objects with their mouth and tongue.

For this, we offer various rattles and graspers that are totally safe for babies, will help improve their motor skills and are designed to meet their individual needs.

Graspers

Our Natural Beads Grasper is made of three types of wood. Little explorers will have sensory experiences with light and dark, hard and soft, heavy and light, structured and smooth wood.

The colors of our beads are from non-toxic, water based stains which are absolutely harmless and tested in-depth for color fastness to saliva.

Did you know? Natural unpainted wood has an open, rough surface that binds moisture. And on this dry surface, bacteria cannot multiply, they die.

Tumbled for Therapeutic Use

The rounded shapes of our teething toys attract the hands of young and old with its calming effect.

Thus, the beautiful pieces can also be used in occupational therapy for elders' hands. The shapes of the Relaxing Bird, the Beads Grasper, the Heart and Hedgehog Grasping Toy are especially suitable for caressing and exploring with the hands.

"We want you to be able to let your precious treasure play safely and discover the world."

Rattles

Wood from the alder tree is very special and gives unique structure to each of our rattles and grasping toys. The plant based oil finish protects the wood and accentuates this vivid structure.

Our rattle fishes are filled with fine semi precious stones, which make a pleasant, gentle sound. The unique feature of the Rattle Rose Quartz is the contrast between the warmth of the wood and the coolness of the semi-precious stone. Our supplier guarantees fair production of the stones by regularly

visiting the producers personally.

08230
Rattle Rose Quartz
L = 9 cm
Recommended Age: 0+
With rose quartz

08070
Cube with Bell
L = 5 cm
Recommended Age: 0+
With little bell

Recommended Age: 0+
With little bell and beads

PUSH & PULL ALONG

Our vehicles and pull-along toys with reduced design encourage crawling and chasing.

Robust & All Terrain

Our vehicles and pull-along toys are impressive, simple in design and easy to load. They work quite well off-road and are suitable for rides in the countryside.

Our wooden sailing boats on wheels - the Land Yachts - definitely float and are absolutely bathtub-worthy!

Tip: When drying, please do not put on a heater, as this may cause cracks in the wood – simply let dry at room temperature.

Loyal Companions

Our pull-along toys have different fun attributes, so everyone can find a loyal friend and favorite companion.

09315
Large Land Yacht
L = 18 cm
Recommended Age: 1+
With 4 sailors

09050
Horse Holly
L = 21 cm
Recommended Age: 1+

09070
Elephant Otto
L = 23 cm
Recommended Age: 1+

09000
Bobbing Rabbit Hans
L = 12,5 cm
Recommended Age: 1+
Hops up and down

09011
Rainbow Turtle
L = 24 cm, 11 Teile
Recommended Age: 1+
With 10 rainbow colored building blocks and lots of space to load and unload

09040
Pull Along Truck
L = 22 cm, 11 Teile
Recommended Age: 1+
With 10 rainbow colored building blocks

On wheels

Children love anything that rolls. Just a little push and whoosh, off they go! A slightly sloping surface and passengers that can get on and off are especially fun.

13010
Horse Willy
H = 15 cm
Recommended Age: 1+

09316
Little Land Yachts
L = 12 cm, H = 14 cm
Recommended Age: 2+
4 Land Yachts, each with one sailor

09420
Small Truck
L = 13,5 cm
Recommended Age: 1+

09440
Large Truck
L = 22 cm
Recommended Age: 1+

09480
Bus
L = 17,5 cm
Recommended Age: 3+
Offers carpooling for 3 rainbow friends

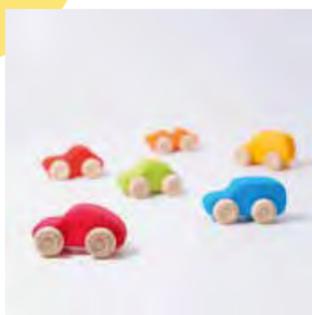

Our wooden toys on wheels will become loyal companions of your child and over time inspire many adventures both big and small, going beyond the boundaries of the children's room.

Little world builders will learn to understand that wood is a great material that not only floats, but can also be repaired if something breaks.

With 1 Peg Doll
Recommended Age: 1+

On a big trip

Our small wooden train runs on all standard wooden tracks as well as on smooth flooring.

With this train, our rainbow friends can go on a long journey or transport ever-changing freight from here to there.

We have made our little wooden train as a construction game, so it can sometimes race over the rails as a modern high speed train or be a more nostalgic-looking locomotive.

We are already looking forward to the many travel stories that our construction toy train will soon tell!

GRIMM'S COLORFUL WORLD OF DOLLS

Simple and unique toys for children's favourite play – Playing dolls and dressing up. With role play, children enter the world of older boys and girls.

Made with love

All dolls are manufactured in Europe using traditional handwork techniques.

The loving faces are painted by hand, giving each doll a unique expression. Only certified Oeko-Tex Standard 100 cotton fabrics are used. The stuffing is soft polyester.

Our dolls prefer gentle and careful hand washing. The colors on the face are water-proof, but can fade and the fabric can be stretched out if not washed gently.

original size

Wooden Balls in all sizes

Playing, building and sorting ...

Our wooden balls come in different sizes, so you will not only find the right size for every age and every child's hand, but also for every ball track.

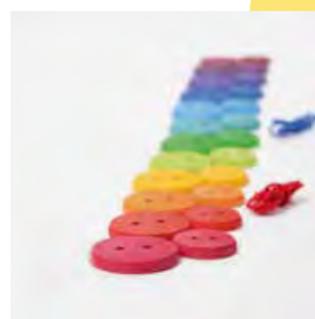

And there's a lot to discover in the movement of the balls as you skilfully build and sort with each ball size making a different sound.

Sorting Helper

This Sorting Helper (see page 41) can be used to sort and keep all the colored wooden beads from our standard offering and other GRIMM'S treasures. Children love sorting the beads. And if things somehow get out of order, they usually also love to put things back in order again.

Great also for holding pencils, pens, scissors and more.

Stacking & Building

A disc rolls over the floor and little Laura crawls behind, cheekily catching it. Then she tries to put the disc on the rod. She looks for the hole in the middle of the disc and with a little back and forth, the disc falls on top of the others with a clack.

A look toward mom and a proud laugh shows pure joy in her own success.

This fun, classic toy for toddlers promotes and develops eye-hand coordination and fine motor skills.

10563
Small Set of Boxes Ocean
 L = max. 10 cm
 5 pieces
 Recommended age: 1+

Stacking and Sorting

The bowl and box sets are very versatile and practical:

Young children use them for stacking, sorting and collecting.

Older children use them as small dollhouses, puppet theaters, car ports and much more.

And of course, the colored bowls and boxes are also beautiful and practical for storing supplies and arranging on a work desk.

"We want to promote sensory perception so that it can develop in a differentiated way."

 12 colored boxes in wooden frame
 Recommended age: 3+

10298
6-piece Sorting Helper
 Frame L 26 cm
 Box 8 x 8 cm
 6 colored boxes in wooden frame
 Recommended age: 3+

COLORFUL RAINBOW WORLDS

"The beauty of these open-ended building toys is that they grow with the child. Because of their open-ended nature, these materials are able to meet the child where he or she is in their own individual stage of development. There is something about these enchanting handmade toys that makes me think they absorb the stories of the children that use them."

Lizzie Assa

The entry into the world of free play

Due to the smaller number of parts and colors, we recommend the 6pcs Rainbow and the other four elements for children from one year and up as an introduction to the amazing world of free play and the wonderful world of rainbows.

First, the play is simple as pieces are disassembled, stacked and sorted. Later, complex structures emerge as quickly as new ideas spring forth. Sometimes a doll's bed or even a doll's house, then fences or mountains. The simplicity of the design inspires children's imagination.

The Small Four Elements are perfect travel companions for children age 3 and up.

BUILDING

& ADVENTURE WORLDS

Building blocks are one of the most elementary toys for children, enabling a wide range of learning and experience.

We are interested in offering a wide variety of shapes and colours to help children playfully explore the world they live in.

Many of our construction sets provide much more than just building blocks. They invite the child to explore and discover their stories.

Beginning Builders

The blocks on this page are ideal for discovering the wide world of construction. After playing, the blocks are quickly cleaned up using the net bag or a basket.

Children's block play starts from simple stacking to elaborately constructed scenes.

Pebbles & Hand Charmer

The pebbles are ground by hand, so these are not only wonderful to look at with their vibrant colors and special wood grain, but also very pleasing to the touch for small and big hands. Amazing towers can be made from the colorful pebbles.

10057
River Pebbles
L = 6 - 12 cm, H = 2,5 cm
4 pieces
Recommended age: 1+

10120
60 Colored Geo-Blocks
Thickness 1 cm, 2 cm, 4 cm
60 pieces in a cotton net bag
Recommended age: 1+

10130
30 Colored Geo-Blocks
Thickness 1 cm, 2 cm, 4 cm
30 pieces in a cotton net bag
Recommended age: 1+

10015
Giant Building Blocks
19 blocks 7 - 21 x 7 cm.
Recommended age: 1+
Ideal for playing with outside since structures can be stable on uneven surfaces as well.

Recommended age: 1+

Organic Shapes

Whimsical houses allow children to re-enact their favorite fairy tales.

They are ideal for children to play with as building blocks, creative puzzles or for setting up an imaginative scene – can also be used as decorations on nature tables.

"We want to support and encourage children to discover their own creativity – leaving room for independent decisions."

Magical play worlds

Our new play worlds are the perfect starter sets.

They contain selected parts from various play sets in our range and offer an exciting mix to immerse yourself in.

The extra holes for decorating with treasures from nature invite you to take the playsets outside or integrate nature into play at home.

What's inside:

- + Building worlds
- + Act out stories
- + Making faces and figures
- + Integrating natural treasures
- + Construct marble runs
- + Decorate seasonal tables
- + Threading beads
- + Stack towers

Would you like even more inspiration for balancing games, marble runs, threading games, free building, experiencing the seasons and much more?

Just scan here!

Recommended age: 3+

Little acrobats

Emotions

True mountain friends

Building & Puzzles

Our construction toys in a wooden frame span a wide range from strictly geometrical forms to organic forms which are modeled after nature.

It's not important to put the image back together correctly. Rather, it's about discovering together what else can be created.

The games complement every room and can be transformed at will. They will be played with throughout childhood as little ones play one way and older children play another way.

The age recommendations are based on the size of the individual parts of a game and the number of parts or shapes in the game. The smaller the individual parts and the more complex the color and shape language, the older the age recommendation.

Large Building Sets

The core of our building worlds are the large building sets.

They are incredibly versatile and varied; making very exciting combinations possible.

The shapes are either strictly geometric or flow organically and the colours range from vibrant to natural wood tones.

In the square wooden frames, the building blocks become a work of art and tidying up becomes child's play.

PLAY OR TIDY UP?

42091

Recommended age: 3+

42300
Large Stepped Counting Blocks
Frame L = 44,5 cm,
100 blocks 1 - 10 x 4 cm
Recommended age: 3+

The shapes and colors of these two building sets are inspired by Friedrich W. A. Froebel's concept of early childhood education and his pedagogy (1782-1852).

Organic Building Sets

Organic shapes are the shapes of nature. With them, nature-orientated play can happen indoors.

The abstract building blocks leave plenty of room for creative ideas from both small and big building artists and fantastic works and play landscapes are created.

"We believe that playing together creates closeness and brings about a slowing down, especially for adults."

10209
**Building Set
Four Temperaments**

Frame L=44,5 cm,

43270
Large Color Spiral
Ø = 38 cm, H = 4 cm
72 pieces in frame
Recommended age: 4+

With the Large Color Spiral imaginative young builders can make two dimensional graphic patterns and images, three dimensional towers, houses, fences, ships and so much more.

42095
Counterrotating Stepped Spiral
L = 22,5 cm
56 pieces
Recommended age: 4+

This large spiral staircase is a useful and special addition to all construction kits. Every building can be made accessible.

Glamorous sparkle

The pieces can be used as building blocks. Combined with other components, imaginative play worlds become real, guaranteeing years of creative fun.

The beautiful acrylic glittering stones are incorporated into the building blocks and give the mandalas a magical appearance.

The pieces let countless beautiful free forms and motifs arise.

Small Building Sets

Bigger hands - smaller building blocks. As the child grows, their fine motor skills improve and smaller elements can be used for building more detailed constructions. For this we have our small building sets with 1-2 cm high building blocks in comparison to the large building sets with 4 cm high building blocks.

43260

It's tricky

At first, these building sets look like a memory game in which the matching color blocks must come together.

In fact, they are tricky building sets with blocks tilted at different angles designed for young and old. Ideal for creating intriguing marble tracks or towers that push the boundary in angles and height.

10184
Cornerstones
Frame 15 x 15 cm
18 blocks 4 x 4 cm
Recommended age: 5+

40001
Concave finds Convex
L x W x H = 26,5 x 20,5 x 1 cm
24 Pieces in wooden frame
Recommended Age: 4+

10064
Sloping Blocks
Frame L = 31 cm
30 blocks H = 6 cm
Recommended age: 5+

Only the matching colors will complete a rectangle. All 6 blocks within one shade of color have the same tilt angle and therefore will also make a rectangle.

MAGNETIC GAMES AND BLACKBOARDS

Our magnetic games fascinate young and old. Once you begin it's very difficult to resist the pull of these attractive puzzles. The many variations of colours and shapes allow you to create new and imaginative pictures or make creative letters to spell out nice messages.

Fantasy & Concentration

Our small Magnet Puzzles are inside an attractive black metal box, so you can start playing and creating immediately. The metal box makes it easy for children to take along their favorite puzzle when traveling.

Tip: The images can be stunning room decor. Attach the box on the wall with adhesive tape.

In addition, we offer large frames for the Magnet Puzzles which allow for greater flexibility in designing on a larger "canvas" (see page 83).

The Magnet Puzzles are made in cooperation with sheltered workshops.

LEARN

& EXPERIENCE

We offer products that support notable learning outcomes by illustrating mathematical correlations and making them tangible at the same time.

Everything that can be captured with both the hands and the eyes will be understood and memorized more easily.

GRIMM'S World of Numbers

All games shown on this page fit perfectly together. Children can discover the more abstract world of numbers in many different ways by playing and by simply using their different senses. They can make sense of what belongs together and thereby discover the world of numbers for themselves.

These are not traditional educational toys or materials that are precise and guide toward one correct answer.

None of the products have numbers or fractions on them since the main intention is to provide materials that stimulate free play in various ways. There are endless ways to discover the abstract world of numbers by using the different senses.

**The Weather
 Cardboard Book**
 17x17 cm
 Recommended age: 1+

“Das Wetter - The Weather” is a lovingly designed board book created in collaboration with illustrator Sarah Settgast.

It is designed for young children and contains colourful pictures and stories about the weather. It has easy-to-read letters for those learning to read, as well as English words, providing a first introduction to a foreign language.

Using the GRIMM'S wooden letters (p. 93), the words can be easily reproduced and learned in a playful way. Nearly a hundred of our toys are pictured in the 24 watercolour illustrations by Sarah Settgast and we invite you to search for them.

Our Weather Stories book is also a wonderful addition on the seasonal table.

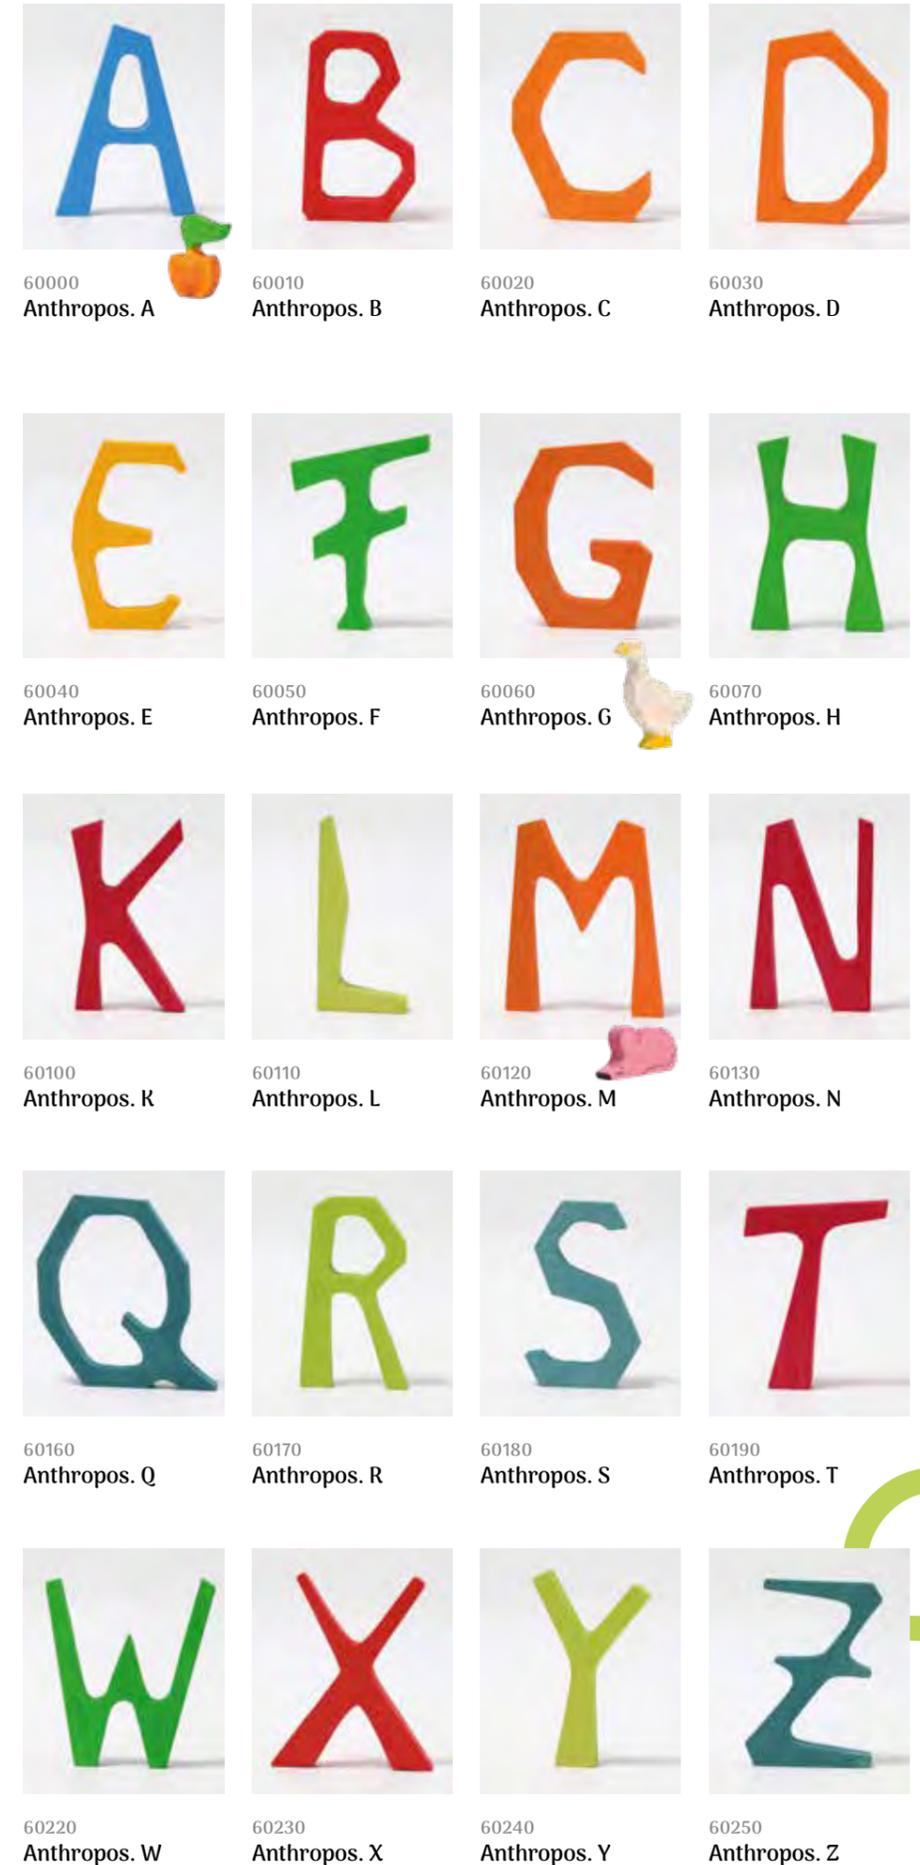

Anthroposophical Letters

The special thing about these wooden letters is their uniquely balanced shape. In contrast to other decorative letters, it is possible to stand these upright, so they are perfect for use on seasonal tables or as birthday decorations.

Alphabet Figures German see page 92.

Height = 7,5 cm
 Recommended age: 3+

Spelling and Linguistic Development

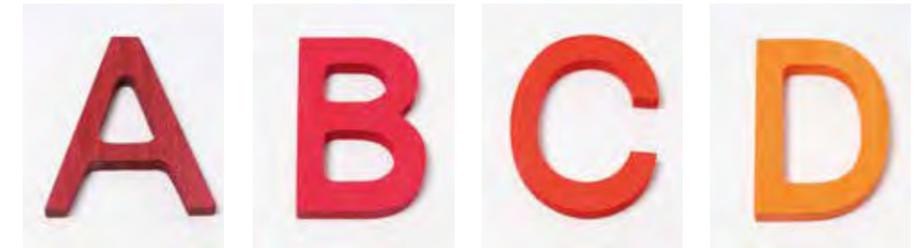

The P does not want to stand with his heavy head, it tilts forward and leans on the E. If I follow the B with my fingers, it feels soft. The K is very angular and has two long arms. The S is shaped like a snake, through the O I can see through.

Each in his/her own way, children can visually and happily discover the letter forms. This creates a light and playful approach to the world of writing and reading.

School Writing Letters to touch

The wooden letters in school text on this page, with a height of 7,5 cm, are also perfect for hanging on the door or for labeling cupboards and wardrobes.

Decorative articles - not toy!

FAMILY CELEBRATIONS & RITUALS

Festivals and celebrations are the highlights of the year. Through them we celebrate nature, the people around us and the time we spend together.

Festivals are often associated with something magical, particularly for children and family traditions give children a sense of security. With our seasonal and festive series, we want to encourage these traditions and help create memorable family moments.

Experience the Seasons

What is a year? How many months in a year? What happens during a year? The circular nature of the seasons and the various occasions during the months are vividly portrayed in our Annual Ring in keeping with Maria Montessori's observations about how to best help children learn. Green shades represent spring, yellow for summer, red for autumn, and blue for winter.

Decorative article - not a toy!

Small Annual Ring

This celebration ring has 12 segments and is therefore suitable as a small annual ring.

The twelve rainbow friends 10581 (p. 46) can each stand for a month and take a place during the year on the ring.

This is both a space-saving and cost-effective alternative to the large annual ring (03000).

Seasonal Postcards

This charming marketing material (see p. 111) will adorn any seasonal table.

Seasonal Festivity Stand
H = 60 cm, Ø 43 cm
9 pieces + 7 brass candle holders
Decorative article - not a toy!
To celebrate seasons and holidays.

Celebration Rings

Children's bright eyes will discover their favorite animal among flowers and candles and love to look at the decorated ring, watch the flame flicker and, of course, blow the candle out.

Our celebration rings can be used all year round - whether for birthdays or other celebrations. Decorated with the appropriate seasonal figures or treasures from nature and the cozy glow of candles, they add a special magic to any celebration.

Advent & Celebration Spirals

This wooden spiral is an Advent decoration or a beautiful centerpiece on the celebration table.

The elements can also be set up individually or in a row like a wavy line. At Advent, you can light a new candle on each of the 24 days, or move a candle along a hole each day.

For birthdays, the adding of a new candle each year will become a cherished ritual. Decorative figures, a small vase of flowers (04700/04760) and the birthday number can add to the enchanting spiral.

To allow the candles to burn off safely, please order the matching candle holders (04800 or 04801).

Make sure that there is no draft and that no decorative figure is near the flames.

Giant Rainbow

L = 90 cm, B = 30,5 cm, H = 46 cm, 5 pieces

Thanks to a mix of solid wood and plywood, children can build tunnels, houses and more, despite their imposing size.

CAUTION! This product is not a toy intended to support a child's weight. Please do not stand or jump on it.

The Giant Rainbow can be used as decoration in your shop window and is available for rent. For more information, see the Resellers section at www.grimms.eu
